HERE'S WHAT PAST STUDENTS HAVE TO SAY ABOUT THE RUTGERS SUMMER SCHOLARS PROGRAM

My instructor made it obvious he wasn't there just to get paid, but rather to share his own and develop his students' passion for writing...John R.

The Summer Scholars Program allowed me to experience what college-level classes feel like...Yash D.

I took a Rutgers summer course because I wanted to receive a college-type experience and feel more prepared when I go to college...Melanie K.

The best thing about my instructor was his availability and willingness to work with students...Charles D.

After looking at other colleges' summer programs, I found that Rutgers Summer Session's office staff was the nicest of them all and actually took a real interest in what I wanted...Georgette B.

Are you an ambitious and high-achieving high school student? Get a jumpstart on your college education! Apply now to take up to two introductory-level Rutgers University-New Brunswick courses for college credit. Classes meet on campus, online, and at locations along the New Jersey shore.

Why Apply?
- Prepare yourself for the academic rigors of college
- Gain a competitive advantage for admission to top universities
- Earn credits toward your university degree
- Explore possible majors
- Experience what it’s like to attend a major university
- Take a prerequisite for an advanced course before entering college

Tuition & Fees
Rutgers Summer Scholars are responsible for all undergraduate tuition and fees. See website for complete information on costs.

Eligibility
- Students age 16 or older with a minimum 3.0 GPA are eligible to participate.
- Students under 16 are considered on a case-by-case basis. Standardized test scores, an in-person interview, and a signed parent permission form are also required.

Please note:
- Some courses may have additional requirements. Please see website for more information.
- High school seniors graduating in June should visit summer.rutgers.edu for information about registering as a visiting student.

Academics
- Summer Scholars will attend class with and be held to the same standards as undergraduate students.
- Our faculty recommends introductory-level courses from a broad range of fields, including:
  - Administrative Studies
  - African American Studies
  - Art History
  - Biochemistry
  - Business
  - Chemistry
  - Chinese
  - Cognitive Science
  - Communication
  - Economics
  - English
  - Exercise Science & Sports Studies
  - French
  - Geoscience
  - Geography
  - Geology
  - German
  - History
  - Information Technology
  - Labor Studies
  - Political Science
  - Psychology
  - Spanish
  - Theater Arts
  - TV Production
  - Visual Arts
  - Women’s & Gender Studies

Please see website for full list of course offerings and schedules.

If you are a high school student age 16-18 who has completed courses in pre-calculus and physics, you are eligible to participate in the Pre-Engineering Summer Academy. This one-week (July 31-Aug 6) non-credit residential program provides students with the opportunity to explore engineering as a possible career.

- Talk with Rutgers professors and professional engineers about engineering concepts and career applications
- Analyze case studies of catastrophic structural failure
- Design real-world objects from your imagination using the latest 3-D technology
- Tour the Rutgers Wireless Information and Network Laboratory (WINLAB)
- Share a campus apartment and meals with classmates
- Participate in campus cultural and leisure activities
- Enjoy use of campus libraries, computer centers, restaurants, and recreation centers
